## Software Engineer

### WORK EXPERIENCE

#### **Rithm School • Remote • 05/2023 – Present**

##### **Teaching Assistant and Software Engineer • Full-time**

- Provide instructional support for a class of 12 to 20 full stack software engineering students for 16 weeks, focusing on JavaScript, TypeScript, React, Python, Django, and SQL
- Collaborate with other instructors to lead lectures and daily code reviews to enhance debugging skills and promote professional code
- Serve as co-team lead for 8 to 10 students, managing 3 agile sprints and reviewing 8 PRs encompassing over 4,000 lines of Django code
- Contribute to a shared, 81,000-line Django codebase representing our student information and admissions system, including maintaining 99% testing coverage

##### **Software Engineering Intern**

- Implemented a tagging system for curriculum materials using Django generic relationships for improved searchability and organization
- Cut load times by 40% and enhanced cross-process syncing with a Redis caching system
- Completed 3 pair-programming sprints on an agile team with accepted pull requests

#### **Great Leap Studios • 08/2020 – 02/2023**

##### **Digital Marketing Specialist**

- Developed and maintained 50 custom and template WordPress websites
- Managed VPS server and cloud hosting solutions for 30 websites with 99.5% uptime across sites

#### **Betterment • Denver, CO, USA • 02/2020 – 08/2020**

##### **Banking Services Associate**

- Resolved 65+ customer tickets per day via phone and email to help users with technical and product issues with a 93% satisfaction rate

#### **The Cleveland Orchestra • Cleveland, OH, USA • 01/2019 – 01/2020**

##### **Development Database Coordinator**

- Led Tessitura CRM sanitization project, collaborating across departments to standardize data in a database used by 100 staff members
- Provided all database training for the organization to empower users in their specific roles

## **Broadway Sacramento • Sacramento, CA • 01/2016 – 12/2019**

### **Annual Giving Coordinator • Full-time**

- Served as Tessitura CRM super-user and Development department database administrator for a 2,500-person donor base
- Automated routine processes which reduced time to process and acknowledge gifts by 90%, cut postal costs by 50%, and reduced time to reconcile fundraising income with finance by 80%

## **VOLUNTEERING & LEADERSHIP**

### **#LWTGames • 03/2024 – Present**
